## Pneumatic Riveter

### Narrow Frame Head

22.0mm(.866") diameter Frame Head allows for use in tight spaces.

R1A2

### The resin grip which makes it easy to grip

Well balanced tool with a comfortable feel in the operator's hand. Handle has a natural curve that is easy to grip.

### Air intake with changeable left/right direction

Air inlets on both the left and right side allowing for greater flexibility, and operator productivity.

### Reduced air consumption of approx. 30% compared with our conventional model

With an improved air circuitry design, consumes 30% less air than previous generation tools. This reduces compressor costs and is environmentally friendly.

### Oversized mandrel container

Oversized mandrel container. Improved efficiency = greater productivity

R1A2

### Long Stroke

R1A1 19mm(.748")

R1A2 22mm(1.02")

### On-board vacuum on/off switch

Conveniently located on/off button controls vacuum mandrel collection. Simply push the button to activate vacuum, then switch to off when not in use to reduce air consumption and cost.

### Lightweight, durable design

As ergonomic leaders, Lobster designed a lightweight riveter durable enough for use in high volume applications. A superb center-balance design is comfortable in the operators hand, enhancing the lightweight feel.
